

# KITTEN CHECKLIST

---

Do you have everything ready for your new kitten? Here's your checklist of items your kitten may need at waiting at home for them..

**SCRATCHING POST** - A Scratching post will lower the chances of your kitten damaging your furniture. Show your kitten what to do by placing its paws on the scratching post and they will do the rest!

**EARTHBORED DIET** - Your kitten is currently on the Earthborn Diet. A well balanced diet with no by-products. Please ask our friendly staff why this food is so beneficial for your kitten.

**CARRIER** - A Carrier will keep your kitten safe while travelling in the car.

**NO SCRATCH SPRAY AND CATNIP SPRAY** - It's very natural for a kitten to scratch! "No scratch spray" will help prevent your kitten scratching in areas it's not meant to while "Catnip Spray" helps encourage your kitten to scratch its post and keeps your kitten interested in its toys.

**SLICKER BRUSH** - The slicker brush will keep your kitten's coat looking healthy. This brush is perfect for removing loose hair and is suitable for long and short haired kittens. Brush your kitten daily.

**COLLAR** - Kittens are very mischievous. A collar with a bell will help you keep track of where your kitten is in your home.

**LITTER AND LITTER TRAY** - It's best to keep your kitten on the same litter it's been happy using. We recommended an enclosed litter tray this holds in the smell and is easy to clean out.

**HEALTH TREATMENTS** - It is extremely important to keep your kittens intestinal worming, heartworm and flea treatments up to date and not put your kitten at risk.
